SCIENCE

STEM Careers: Presentation and Q&A

Hosted by Gateway Community and Technical College

May 15, 2021 from 1:00pm-2:00pm EST

For grades 9-12

Join educators at Gateway for a live presentation to learn more about the STEM career pathways at Gateway and ask questions. [Learn More](#)

Patient Case: Billie

Hosted by NKU Institute for Health Innovation

May 15, 2021 from 2:00pm-3:00pm EST

For grades 9-12

In this simulated medical emergency, "Billie" is a senior in high school who was brought to the ER after suffering from a diabetic crisis at school. Billie is now at Children's Hospital ER in the care of Rami, one of the ER Paramedics. Rami has received a number of orders from the ER physician and needs your help with prioritizing and executing these orders to help Billie. [Learn More](#)

Feelin' Froggy

Hosted by Covington Partners

On demand from May 15-17, 2021

For grades K-2 and 3-5

Explore the world of amphibians through articles and video clips, then create their very own paper, or origami, hopping frog. [Learn More](#)

The Science of French Toast

Hosted by the Cincinnati Museum Center

On demand from May 15-17, 2021

Grades 3-12

Have you ever thought of cooking as a chemistry experiment? Follow along as Brian makes French toast to learn about the science of cooking. [Learn More](#)

Snow Slime

Hosted by the Kenton County Public Library

On demand from May 15-17, 2021

Grades 3-8

Learn how to make fluffy snow slime. This soft, squishy slime was inspired by a snowball! [Learn More](#)

Engineering Flight

Hosted by Covington Partners

On demand from May 15-17, 2021

Grades K-5

Explore the world of flight and aviation through articles and video clips, then explore an Engineering Design Process to design, create, test, and recreate their own paper airplanes. [Learn More](#)

The Science of Popcorn

Hosted by the Cincinnati Museum Center

On demand from May 15-17, 2021

Grades 3-12

Have you ever wondered why popcorn pops? The key is heating water molecules in the kernel to the point of boiling, causing the water to expand until the outer shell can't contain the pressure. So what would happen if you cooked popcorn that had been soaked in water? Find out here! [Learn More](#)

Plate Mazes

Hosted by the Cincinnati Public Library

On demand from May 15-17, 2021

Grades K-5

You can be an engineer! Use an engineering design process to plan, build, test and evaluate a 3D maze using a paper plate and play dough. [Learn More](#)

Kitchen Chemistry

Hosted by Covington Partners

On demand from May 15-17, 2021

Grades K-5

Explore chemistry in the kitchen by using every day household items to create a chemical reaction. But first, you will learn more about chemistry through articles and video clips. [Learn More](#)

Make a Cloud in a Bottle

Hosted by Cincinnati Museum Center

On demand from May 15-17, 2021

Grades K-12

Did you ever think you could create a cloud? With a few drops of liquid and some quick pressure changes, you can create your own cloud in a bottle! [Learn More](#)

The Sound of Music

Hosted by Covington Partners

On demand from May 15-17, 2021

Grades K-5

Learn about sound through video clips and articles, then create your own musical instrument and use it to demonstrate the concepts you learned. [Learn More](#)

Who Becomes a Fossil?

Hosted by Cincinnati Museum Center

On demand from May 15-17, 2021

Grades K-8

Fossils are the mineralized remains of plants or animals that were alive a long time ago. Though there are a whole lot of fossils on earth, only a very small fraction of all the plants and animals that ever lived have become fossils. So who becomes a fossil, and who doesn't? Let's find out! [Learn More](#)

Cookie Confusion: Finding Fat in Foods

Hosted by Covington Partners

On demand from May 15-17, 2021

Grades K-12

Learn how to determine the presence of fat in food. You will analyze cookie data to solve the mystery of which cookies are low fat or full fat. [Learn More](#)

Germs!

Hosted by Covington Partners

On demand from May 15-17, 2021

Grades K-5

Explore the world of germs to understand how they spread and how to stop the spread. You'll also do a hand-washing experiment to see what it takes to eliminate pesky germs. [Learn More](#)

Rock Candy

Hosted by Kenton County Library
On demand from May 15-17, 2021
All ages

Learn the science behind how sugar crystals form into delicious rock candy! [Learn More](#)

Make Kinetic Sand and Oobleck

Hosted by Cincinnati Museum Center
On demand from May 15-17, 2021
Grades K-8

What looks and feels like sand, but behaves very differently? What acts like a liquid sometimes, but a solid when you apply force? In this video, learn how to make your own kinetic sand and a non-Newtonian fluid called Oobleck! [Learn More](#)

STEM Programs at Gateway Community and Technical College

Hosted by Gateway Community and Technical College
On demand from May 15-17, 2021
Grades 9-12

Gateway Community and Technical College offers different degrees, certificates, and pathways in the STEM fields. Explore some of these fields with this video. [Learn More](#)

Make Your Own Constellations

Hosted by Skool Aid
On demand from May 15-17, 2021
Grades 3-8

Gaze into the great beyond and make your own constellations. [Learn More](#)

The Science of Woodwinds

Hosted by Skool Aid
On demand from May 15-17, 2021
Grades 3-8

You can make your own reed instruments and learn the science behind the sounds they make in this awesome video from Ms. Mackenzie! [Learn More](#)

Layers of the Earth

Hosted by Kenton County Library
On demand from May 15-17, 2021
Grades 3-8

Learn to make an interactive model of the earth with its interior layers listed out using construction paper and fasteners. [Learn More](#)

Public Health and Proper Handwashing

Hosted by Northern Kentucky Health Department
On demand from May 15-17, 2021
Grades 3-12

Come join the North Central AHEC to learn about emerging careers in the Public Health field. You will watch a video on

the CDC's recommended hand washing technique guidelines to prevent the spread of infectious diseases. You will see a visualization of how germs are spread by touching surfaces. [Learn More](#)

Static Charge

Hosted by Skool Aid

On demand from May 15-17, 2021

Grades 3-8

Teaching Artist Mr. Kevin explains how static charge is formed by a buildup of electrons, and shows you activities that illustrate how static charge can act at a distance! [Learn More](#)

Cicada Story and Craft

Hosted by Cincinnati Public Library

On demand from May 15-17, 2021

Grades K-5

Interested in learning more about these little creatures invading our area in May? Join Gwen Z Roth from Hamilton County Soil & Water Conservation District for a cicada story and craft. [Learn More](#)

ARTS

Dancing and Painting to Music

Hosted by Visionaries + Voices

May 15, 2021 from 11:00am-1:00pm EST

For all ages

Visionaries + Voices artist, Diamond Snowden will lead participants in a painting lesson, using music as inspiration for use of colors and brush strokes. Everyone from beginners to painting enthusiasts can benefit from this lively exploration of the senses. [Learn More](#)

Communicating with Signs

Hosted by American Sign Museum

May 16, 2021 from 1:30pm-3:00pm

Grades K-5

In this live, interactive program, we will discuss what symbols are and how businesses use them to create signs that communicate with their customers. We will explore signs from the late 1800s through the 1980s and see how technology influenced sign design. We will then use all that we learned to inspire us to create our own personal signs. [Learn More](#)

Journey of a Book: Meet the Authors

Hosted by Cincinnati Public Library

May 17, 2021 from 4:00pm-5:00pm

Grades 3-8

Are you a budding writer or illustrator? Join Cincinnati picture book authors Ashley Aya Ferguson and Will Hillenbrand to learn about their creative processes, and get a chance to ask questions about how you can get started as a writer or illustrator. [Learn More](#)

Junk Journals

Hosted by Art Equals

On demand from May 15-17, 2021

For grades 3-5 and Grades 6-8

Gather your junk and let's get creative! Learn how to turn your junk mail, empty snack boxes, and old papers into a creative book for journaling and self-expression. Along with simple book making techniques, you'll learn how to expand your junk journal, practicing the three R's ; recycle, reuse, and repurpose. [Learn More](#)

Loom Weaving

Hosted by the Kenton County Public Library

On demand from May 15-17, 2021

For all age groups

Use common and found materials to weave a small hanging. You will experiment with pattern, texture and design while building fine motor skills needed for writing, drawing and tinkering of all kinds. [Learn More](#)

Handmade Ceramic Pinch Pots

Hosted by the Cincinnati Art Academy

On demand from May 15-17, 2021

Grades 6-12

Learn the process and techniques of hand-making pinch pots that can be used for plant holders, bowls, and more! [Learn More](#)

Shadow Puppets

Hosted by Christine Langford

On demand from May 15-17, 2021

Grades K-12

In this easy activity for all ages, learn to make your own shadow puppets, then have fun telling your story. [Learn More](#)

Dynamic Notans

Hosted by Christine Langford

On demand from May 15-17, 2021

Grades 3-12

Learn how to create simple black and white cut-paper designs, based on a Japanese principal. Notan is the harmonious play of dark and light elements in an artwork, as seen in the Yin Yang symbol. In this lesson we play with the idea that some things can't be whole without the holes. [Learn More](#)

Printmaking at Home: Monoprinting Mandalas

Hosted by the Cincinnati Art Academy

On demand from May 15-17, 2021

Grades 3-12

Create a series of prints inspired by the mindfulness practice of designing mandalas. Use this monoprint method to experiment with colors, paints, and details. [Learn More](#)

Outdoor Art for Young Children

Hosted by Girl Scouts of Western Ohio

On demand from May 15-17, 2021

Grades K-2

Celebrate the colors & sounds of spring and learn how to make art in the outdoors. Kindergarten & First Graders will learn how to make pressed flowers and a maraca. [Learn More](#)

Giacometti Sculpture

Hosted by the Kenton County Public Library

On demand from May 15-17, 2021

Grades K-5

Learn about Giacometti's sculptures by drawing stick figures, viewing the artist's work, and using foil to create sculptures! [Learn More](#)

Bookbinding

Hosted by WordPlay Cincy

On demand from May 15-17, 2021

Grades 3-5

Learn to bind a simple notebook or journal, without any fancy binding tools. You can use it as a notebook, a sketchbook, a diary, a campaign journal, a good-ideas repository, a BAD-ideas repository. [Learn More](#)

Abstract Paint Pour

Hosted by the Kenton County Public Library

On demand from May 15-17, 2021

Grades 6-12

Learn the history of marbled art from suminagashi to ebru to marbled book binding and create a modern marbling technique, an abstract paint pour. [Learn More](#)

Outdoor Art for Grades 4-5

Hosted by the Girl Scouts of Western Ohio

On demand from May 15-17, 2021

Grades 4-5

In this workshop, 4th and 5th graders will explore outdoor art, and design with nature through painting rocks. [Learn More](#)

Stream of Consciousness Visual Art Journaling

Hosted by Visionaries + Voices

On demand from May 15-17, 2021

Grades 3-12

Learn journal in stream of consciousness form, as explained by V + V teaching artist, Jennifer Crowe. You will use white crayon and watercolor paint on paper, writing down memories, facts, or the first thing that comes to mind. Through this exercise, you will explore how text can be used as visual art. [Learn More](#)

Teddy, Tea, and Me

Hosted by Books, Bibs and Beyond

On demand from May 15-17, 2021

Grades Pre-K-2nd

In this Outdoor Art activity, you can blow up the art scene by adding some *pop* to your paint. [Learn More](#)

Story Challenge

Hosted by Skool Aid

On demand from May 15-17, 2021

Grades 3-8

Mr. Ian and his family, along with special guests Henry B. and his dad, challenge you to be an author and illustrator!

[Learn More](#)

Dance 101

Hosted by Pones, Inc.

On demand from May 15-17, 2021

Grades K-8

Explore Your Expression Dance 101 is a workshop for everyone – from novice to advanced – and no special shoes are required. Students can explore various styles of recreational, cultural, and social dance with this introductory course to the basic terms, steps, and concepts of each style. [Learn More](#)

Dancing Through the Ages: Sock Hop

Hosted by Pones, Inc.

On demand from May 15-17, 2021

Grades K-8

Learn the special dance steps that were popular in the 1950's, when Sock Hops were all the rage. Poodle skirts and saddle shoes are optional! You'll also learn what was happening in the world during that time period and how it affected the dance culture. [Learn More](#)

Dancing Through the Ages: Disco Dance

Hosted by Pones, Inc.

On demand from May 15-17, 2021

Grades K-8

Unleash your inner Disco Dancer, as you learn the basics of this fun dance style that was hugely popular in the 1970's. You'll also learn what was happening in the world during that time period and how it affected the dance culture. [Learn More](#)

Printmaking with Original Stamps

Hosted by Visionaries + Voices

On demand from May 15-17, 2021

Grades K-12

Learn how to make simple stamps from foam, cardboard and ink from Visionaries and Voices teaching artist, Linda Kunick. Everyone from beginner scissor-users to professionals can benefit from this uplifting and practical visual arts workshop. Create your own unique stamps to use over and over for stationary, cards, and more! [Learn More](#)

Making Handkerchief Puppets

Hosted by Playhouse at the Park
On demand from May 15-17, 2021
Grades 3-8

Puppets come in many styles and colors, and the ones in this class are no different! In this session, handkerchief puppets will be explored. Students will create a puppet from household and crafting materials in this interactive, creative class. Note: Activities include use of a glue gun and require craft materials [Learn More](#)

Blind Contour Drawings

Hosted by Cincinnati Art Museum
On demand from May 15-17, 2021
Grades 3-12

Make a drawing without looking at your paper and improve your perception skills. This entertaining video project is produced by the Cincinnati Art Museum. [Learn More](#)

Fun Learn-to-Read Activities

Hosted by Books, Bibs and Beyond
On demand from May 15-17, 2021
For parents of Pre-K children

We share fun ideas to help young children learn new words and get ready to read. [Learn More](#)

Making Sock Puppets

Hosted by Playhouse in the Park
On demand from May 15-17, 2021
Grades 3-8

Puppets come in many styles and colors, and the ones in this class are no different! In this session, sock puppets will be explored. Students will create a puppet from household and crafting materials in this interactive, creative class. Note: Activities include use of a glue gun and require craft materials. [Learn More](#)

Mix & Match Monster Flip Book

Hosted by the Carnegie
On demand from May 15-17, 2021
Grades K-8

Create your own mix & match flip book by drawing different monster heads, middles, and bottoms. Watch how your monsters take on a whole new look when you turn a page. [Learn More](#)

Monster Dice

Hosted by Cincinnati Art Museum
On demand from May 15-17, 2021
Grades 3-12

Create a monster by rolling the dice in this project that uses chance to create a strange creation. This entertaining video project is produced by the Cincinnati Art Museum. [Learn More](#)

Monster Theatre Makeup

Hosted by Playhouse in the Park
On demand from May 15-17, 2021
Grades 3-12

Step into the world of character design through makeup. Monsters will make an appearance as you learn make-up design techniques. Put on a different perspective with this fun, creative class. Note: Activities require craft materials.

[Learn More](#)

Cubist Still Lives

Hosted by Cincinnati Art Museum

On demand from May 15-17, 2021

Grades 3-12

See things from different angles when you make a still life like Picasso. This entertaining video project is produced by the Cincinnati Art Museum. [Learn More](#)

The Actor's Toolbox

Hosted by Playhouse in the Park

On demand from May 15-17, 2021

Grades 3-12

Just as a handyman has a toolbox of hammers and nails, an actor carries their toolbox everywhere. Using the five pillars (body, voice, imagination, cooperation and collaboration) the Actor's Toolbox provides a basic understanding of introductory arts integration for the classroom. Students will engage in an interactive series of games that teach the basic tools of acting. [Learn More](#)

Creative Reuse Weaving

Hosted by The Well

On demand from May 15-17, 2021

Grades K-12

Utilize common and recycled materials to create a unique woven piece of art. [Learn More](#)

Gesture Drawings

Hosted by Cincinnati Art Museum

On demand from May 15-17, 2021

Grades 3-12

Strike a pose and improve your figure-drawing skills with these drawings that take literally seconds. [Learn More](#)

Improv

Hosted by Playhouse in the Park

On demand from May 15-17, 2021

Grades 3-12

Quick thinking and humor combine in this fast-paced class that will keep students on their toes! Students will learn the basics of improvisation including saying "yes," creating characters on the spot, obstacles and character relationships, while participating in games and activities. [Learn More](#)

Visual Storytime: Daniel Finds a Poem

Hosted by Cincinnati Public Library

On demand from May 15-17, 2021

Grades Pre-K-2nd

Join Children's Librarian Miss Kim for a special nature themed Storytime at Home. Then go on a nature hunt with Miss Amaya! [Learn More](#)

Drawing Caricatures

Hosted by Cincinnati Art Museum
On demand from May 15-17, 2021
Grades 3-12

From 19th century France to the carnival, caricatures are everywhere. Learn how to make funny portraits of your friends and family. [Learn More](#)

Read to Me, Please!

Hosted by Delta Kappa Gamma International
On demand from May 15-17, 2021
For parents and caregivers

This session is for parents and will demonstrate activities to increase vocabulary and language development in preschool-aged children. Research on brain development and reading and its impact on future academic success will be shared. [Learn More](#)

Character Design Using Dice

Hosted by Baker Hunt Art & Cultural Center
On demand from May 15-17, 2021
Grades 3-5

Baker Hunt Instructor Nataley Lancaster plays a fun dice-based drawing game where you will create randomly generated fun characters. Have fun creating! [Learn More](#)

Draw a Realistic Eye

Hosted by Baker Hunt Art & Cultural Center
On demand from May 15-17, 2021
Grades 6-12

Learn to draw a realistic eye with colored pencils. [Learn More](#)

MAKER

Build a Great Future with the Skilled Construction Trades

Hosted by the Enzweiler Building Institute
On demand from May 15-17, 2021
For grades 9-12

In this video, you will meet students and recent graduates who are pursuing careers in the construction trades. They will explain in their own words how these careers are fun, exciting and in high demand. [Learn More](#)

Loom Weaving

Hosted by the Kenton County Public Library
On demand from May 15-17, 2021
For all age groups

Use common and found materials to weave a small hanging. You will experiment with pattern, texture and design while building fine motor skills needed for writing, drawing and tinkering of all kinds. [Learn More](#)

Star Weaving

Hosted by the Kenton County Public Library

On demand from May 15-17, 2021

For all age groups

Create a colorful geometric weaving while building fine motor skills and experimenting with shape. [Learn More](#)

Plate Mazes

Hosted by the Cincinnati Public Library

On demand from May 15-17, 2021

Grades K-5

You can be an engineer! Use the engineering design process to plan, build, test and evaluate a 3D maze using a paper plate and play dough. [Learn More](#)

Binary Jewelry

Hosted by the Cincinnati Public Library

On demand from May 15-17, 2021

Grades 3-12

Learn how to use two colors of beads to create jewelry with a hidden message! Binary code is a language that uses only two symbols. This video will demonstrate how you can encode a secret word or phrase into your jewelry using a binary code. [Learn More](#)

Exploding Popsicle Sticks

Hosted by the Kenton County Public Library

On demand from May 15-17, 2021

Grades 3-8

Learn to use 1/2" wide popsicle sticks to make a pattern on the floor that explodes when one stick is removed! [Learn More](#)

Egg Shakers

Hosted by the Cincinnati Public Library

On demand from May 15-17, 2021

Grades Pre-K-2nd

Use plastic eggs to make your own shaker instruments. Shaking along to a favorite song or rhyme can help your child break down the smaller sounds that make up words. Help your child develop early literacy skills through Talking, Singing, Playing, Reading and Writing! [Learn More](#)

Found Fashion

Hosted by the Carnegie

On demand from May 15-17, 2021

Grades 3-8

Create your own clothes, accessories, or jewelry from found items at home. Make your own fashion items and put on a show! [Learn More](#)

Make a Paper Dog That Walks

Hosted by the Kenton County Public Library

On demand from May 15-17, 2021

Grades 3-5

Learn all about physics and origami by creating a paper dog out of construction paper that will "walk" on its own! [Learn More](#)

Friendship Bracelets

Hosted by the Cincinnati Public Library

On demand from May 15-17, 2021

Grades 3-12

Friendship bracelets are a fun and creative way to show your friends you are thinking about them. This is also a great time to practice mindfulness! [Learn More](#)

Finger Labyrinths for Mindfulness

Hosted by Art Equals

On demand from May 15-17, 2021

Grades 6-12

Let your fingers do the walking as you create and learn how to use a meditation labyrinth. Based on ancient winding paths, these simple to create labyrinths can provide a fun creative space of your own to relax or find new solutions to everyday challenges. [Learn More](#)

DIY Robot Hand

Hosted by the Kenton County Public Library

On demand from May 15-17, 2021

Grades 3-12

Learn about engineering and robotics with some simple items! You'll create and control a hand with strings to explore the wonder of robotic hands. [Learn More](#)

Character Head Pieces

Hosted by the Carnegie

On demand from May 15-17, 2021

Grades K-5

Create a head piece that helps you become a different character for your audience. [Learn More](#)

Make a Tote Bag from a T-shirt

Hosted by the Campbell County Public Library

On demand from May 15-17, 2021

Grades 3-12

Learn how to make a handy tote bag from an old T-shirt. [Learn More](#)

Design It, Build It Challenge

Hosted by the Cincinnati Public Library

On demand from May 15-17, 2021

Grades K-5

Are you up for the challenge? Learn about the principles of engineering while building a tower out of simple supplies you may have at home. [Learn More](#)

Making Community Awards

Hosted by the Carnegie

On demand from May 15-17, 2021

Grades K-8

Recognize and reward a friend or family member in your community by presenting them with an award you design and create. [Learn More](#)

Make a Necklace from a T-Shirt

Hosted by the Girl Scouts of Western Ohio

On demand from May 15-17, 2021

Grades 3-5

In this workshop 4th and 5th graders will learn how to make an upcycled necklace with just a pair of scissors and an old t-shirt. [Learn More](#)

Tour the Maker Space

Hosted by the Cincinnati Public Library

On demand from May 15-17, 2021

Grades 6-12

Take a tour of the MakerSpace at the Downtown Main Library. Learn about the equipment that is available to use (for free!), including 3D printers, software, laser cutters and other tools will help you create pretty much anything you can imagine. [Learn More](#)

Make a Lava Lamp

Hosted by Covington Partners

On demand from May 15-17, 2021

Grades 6-12

Learn how molecules interact with one another by creating a homemade lava lamp using common household items. Using the scientific method, students can make observations and test for interactions in this fun and engaging experiment. [Learn More](#)

Zine Making

Hosted by Carolyn Noe

On demand from May 15-17, 2021

Grades 6-12

Zines are a creative way to express yourself and share with others! Learn how to make three different styles of zines and develop ideas for content that you'll be excited to share. [Learn More](#)

Creative Chromatography

Hosted by Kenton County Public Library

On demand from May 15-17, 2021

Grades 3-5

A simple exploration of colors and dyes, this program separates the color ingredients of markers, candies, etc. via water to show that many monotone objects are actually composed of many colors. Participants can make predictions about what colors different objects will dissolve into, encouraging learning about light and color theory. The resulting dyed coffee filters of the experiment can then be used in a multitude of crafts, such as paper flowers or twist-tie butterflies.

[Learn More](#)

Calming Glitter Jar

Hosted by The Well

On demand from May 15-17, 2021

For all ages

Create a calming glitter jar with just a few supplies for a fun mindfulness activity. [Learn More](#)

The Egg Drop Challenge

Hosted by Breakthrough Cincinnati

On demand from May 15-17, 2021

Grades 6-12

In the Egg Drop Challenge, scholars are instructed to design something that will protect a raw egg from cracking during a fall. Students will learn vocabulary like “apparatus,” “biodegradable,” “force,” “velocity,” “eco-friendly,” “standard operating procedure.” They will design, experiment, and test! They will calculate and reflect. [Learn More](#)

TECHNOLOGY

Discord 101

Hosted by Cincinnati Public Library

May 15, 2021 from 10:00am-11:00am EST

Grades 6-12

Having trouble regularly connecting virtually with your friends and loved ones? We'll teach you how to build your own Discord server that will provide a safe environment for you to keep in touch and host virtual events. [Learn More](#)

Learning Minecraft

Hosted by Campbell County Public Library

On demand from May 15-17, 2021

For grades 3-8

Clara and Danielle begin their adventure in a new world of Minecraft on the library server. Watch as they try to survive the world and Danielle, new to Minecraft, learns how to play the game. [Learn More](#)

Cybersecurity Basics for Young Kids

Hosted by the Girl Scouts of Western Ohio

On demand from May 15-17, 2021

Grades K-2

How do computers keep us connected, and how do we keep our information stored in computers safe? This workshop takes Kindergarten & First Graders through the basics of cybersecurity, with a fun activity on protecting something that is valuable to them. [Learn More](#)

Designing Robots

Hosted by the Girl Scouts of Western Ohio

On demand from May 15-17, 2021

Grades 3-5

In this workshop, second and third graders will learn all about the different parts of a robot, and how they imitate nature, and will have the chance to design their very own robot! [Learn More](#)

“Painting” with Light

Hosted by i.imagine photography

On demand from May 15-17, 2021

Grades 6-12

Using a free app and your smartphone camera, you can create artistic designs using light and motion. [Learn More](#)

The Floor is Lava! Creating Funny Photos

Hosted by i.imagine photography

On demand from May 15-17, 2021

Grades 6-12

Using a free app, you can create funny photos of your family playing The Floor is Lava--where it actually looks like the floor is made of lava! [Learn More](#)

Magnetic Constellations

Hosted by the Kenton County Public Library

On demand from May 15-17, 2021

Grades 3-8

Learn to make magnetic LED lights to place on any metal surface to create classic constellations or ones you make yourself. [Learn More](#)

Be a Coder

Hosted by Covington Partners

On demand from May 15-17, 2021

Grades K-5

Students will learn about the wide world of coding and all the career paths coding has to offer. Students will read and watch clips to learn about coding and the field, then test out various coding programs online. [Learn More](#)

Binary Jewelry

Hosted by the Cincinnati Public Library

On demand from May 15-17, 2021

Grades 3-12

Learn how to use two colors of beads to create jewelry with a hidden message! Binary code is a language that uses only two symbols. This video will demonstrate how you can encode a secret word or phrase into your jewelry using a binary code. [Learn More](#)

Backyard Coding

Hosted by Cincinnati Public Library

On demand from May 15-17, 2021

Grades K-5

Learn the basics of how to code without a computer! Turn conditional statements into a fun outdoor activity. [Learn More](#)

Failing Upward

Hosted by INTERalliance of Greater Cincinnati

On demand from May 15-17, 2021

For all ages

In this interactive activity, learn the process of iteration and learning from your missteps. [Learn More](#)

Intro to Scratch

Hosted by INTERalliance of Greater Cincinnati

On demand from May 15-17, 2021

Grades 6-12

INTERalliance will walk through a beginner tutorial of Scratch! Scratch is a block-based visual programming language and website directed primarily at children. Kids can create interactive stories, games, and animations using the block-based programming language. Scratch was developed by the MIT Media Lab, and has been translated into multiple languages. OUTDOOR LEARNING

I Found a Baby Bird—What Should I Do?

Hosted by the Cincinnati Museum Center

On demand from May 15-17, 2021

Grades K-8

What should you do if you find a baby bird outside its nest? Do you put it back? The answer is: it depends. Learn the right way to safely handle this situation and give the baby bird the best chance for a healthy life. [Learn More](#)

Micro Views of Nature

Hosted by Skool Aid

On demand from May 15-17, 2021

Grades Pre-K-5th

Ms. Carrie helps us get super close to nature to see a whole new tiny world! [Learn More](#)

Make a Sundial

Hosted by Cincinnati Museum Center
On demand from May 15-17, 2021
For grades K-8

We all know you shouldn't look directly at the sun. A safe and fun way to see how the sun moves across the sky is to make a sun dial! [Learn More](#)

Pop Up Story Walk in Covington, KY

Hosted by Read Ready Covington
On demand from May 15-17, 2021
Grades Pre-K-5th

Walk. Read. Spark imagination and conversations. Try our StoryWalks in Covington, KY! StoryWalks are an outdoor activity that allow us to stay safe and socially distanced while getting some fresh air and sharing fun stories. [Learn More](#)

Being a Friend of the Environment

Hosted by Girl Scouts of Western Ohio
On demand from May 15-17, 2021
Grades 2-3

Second and third graders will learn about places our animal friends live in nature and how we can do our part to create a healthy environment for animals to thrive! [Learn More](#)

YOUTH VOICE

Headline of an Era Competition

Hosted by KnowledgeWorks
May 17, 2021 from 11:00am-12:00pm EST
Grades 9-12

The Headline of an Era Competition, adapted from IMPACT: Learning Edition, invites participants to imagine and think critically about emerging changes that could impact the future of learning. Participants win by accumulating points earned by writing the best future headlines. Headlines will explore the interactions of future events provided as prompts. [Learn More](#)

3D Poetry

Hosted by the Cincinnati Art Academy
On demand from May 15-17, 2021
Grades 6-12

Take your voice, vision, and words and materialize them not only on paper but in 3D form, in this case onto a terra cotta pot. [Learn More](#)

Exploring Your Character Strengths Through Story

Hosted by WordPlay Cincy
On demand from May 15-17, 2021
Grades 6-12

After determining your top three character strengths, you will use the prompts to write a story about a time when you used your strengths to solve a problem or reach a goal. [Learn More](#)

Finding Your Creative Voice

Hosted by WordPlay Cincy

On demand from May 15-17, 2021

Grades 3-12

Brandon Isaac is a teaching artist at WordPlay Cincy. In this video, he shares three steps to start developing your unique creative voice. He shares a poem/rap that he wrote using these steps. [Learn More](#)

The Citizen/ship

Hosted by Covington Partners

On demand from May 15-17, 2021

Grades 3-8

The Citizen/ship is a course that teaches students to be their best at home, school online and in the community. A ship is used as an illustration for progress, movement and growth through the various 'stops' or stages of the voyage.

Activities and interactive questions complete the mission to help students 'be the best they can be in my community.'

Exploring Your Name, Part 1

Hosted by WordPlay Cincy

On demand from May 15-17, 2021

Grades 6-12

Using writing prompts, you can explore the meaning of your name and how you feel about it. The exercise concludes with a prompt to write the story of your name. [Learn More](#)

Exploring Your Name, Part 2

Hosted by WordPlay Cincy

On demand from May 15-17, 2021

Grades 6-12

You will learn to write a "list poem" using metaphors to describe who you are. [Learn More](#)

The African American Story

Hosted by Covington Partners

On demand from May 15-17, 2021

Grades 3-8

The African American Story is the journey of Black people in America from the Colonial Era until today. Notable people, events, places and things are presented within historical eras such as the Revolutionary Period and the Civil Rights Movement, placing Black history within the context of American history rather than outside of it. Activities include self-expression from writing poems/songs to crafting a collage. [Learn More](#)

Songs for Change

Hosted by the Carnegie

On demand from May 15-17, 2021

Grades 3-8

Explore how music can be used to bring about positive change. You'll even get to create your own chant about an issue that's important to you. [Learn More](#)

Positive Self Talk Game

Hosted by Cincinnati Museum Center

On demand from May 15-17, 2021

Grades Pre-K-5th

Very young children seem to say whatever comes to mind. But as kids get older and develop their internal self, it can be harder to know what they are thinking and feeling. In this video, we've got a few ways of helping children to develop positive self-thinking through games like Jenga. [Learn More](#)

PROFESSIONAL DEVELOPMENT FOR TEENS

Building Your Own Brand

Hosted by INTERalliance of Greater Cincinnati

On demand from May 15-17, 2021

Grades 9-12

This video will explain why you need to build your own brand and how to do it. [Learn More](#)

STEM Careers: Presentation and Q&A

Hosted by Gateway Community and Technical College

May 15, 2021 from 1:00pm-2:00pm EST

For grades 9-12

Join educators at Gateway for a live presentation to learn more about the STEM career pathways at Gateway and ask questions. [Learn More](#)

Patient Case: Billie

Hosted by NKU Institute for Health Innovation

May 15, 2021 from 2:00pm-3:00pm EST

For grades 9-12

In this simulated medical emergency, "Billie" is a senior in high school who was brought to the ER after suffering from a diabetic crisis at school. Billie is now at Children's Hospital ER in the care of Rami, one of the ER Paramedics. Rami has received a number of orders from the ER physician and needs your help with prioritizing and executing these orders to help Billie. [Learn More](#)

Communicating with Signs

Hosted by American Sign Museum

May 16, 2021 from 1:30pm-3:00pm

Grades K-5

In this live, interactive program, we will discuss what symbols are and how businesses use them to create signs that communicate with their customers. We will explore signs from the late 1800s through the 1980s and see how technology influenced sign design. We will then use all that we learned to inspire us to create our own personal signs.
