

## **BILD TO HOST INTERACTIVE STEM CAREER EVENT FOR STUDENTS AND FAMILIES DURING REMAKE LEARNING DAYS**

### **RELEASE DATE:**

Immediate Release

# **PRESS RELEASE**

Huntingdon, PA – The BILD program is excited to announce its upcoming Remake Learning Day event, “BILD STEM Explorers: Building Bright Futures!” on Thursday, May 15, 2025, from 9:00 AM to 11:45 AM at the BILD Classroom at Southside Elementary. This hands-on, family-inclusive event is part of the national Remake Learning Days festival, focused on inspiring youth through dynamic learning experiences outside the traditional classroom. The BILD staff worked collaboratively with the Central PA Remake Learning Day Team to plan and prepare the event.

With a Career Exploration theme, this private event—exclusively for BILD students and their families—will feature engaging STEM activities designed to spark curiosity about various career paths. Participants will rotate through interactive sub-stations representing careers in animal care, sports, food industry, and engineering.

#### Highlights include:

- Animal Prosthetic Design led by Standing Stone FFA Students under the direction of Michaela Knepp
- Basketball Hoop Engineering with HASD’s Athletic Director, Mr. Matt Young, and HAHS basketball athletes
- Sphero-Powered Food Delivery Vehicle Creation with local restaurant owner, Morgan Sample from McKinley’s at the Huntingdon Country Club, and Tuscarora Intermediate Unit 11 Staff Members

Students and families will also participate in video interviews, enjoy refreshments, and receive a take-home “Mystery Bag Challenge” to continue the learning at home.

Student leadership is also an aspect of the day, with several BILD secondary students serving as event helpers, showcasing the power of peer engagement in educational growth. The event promises to be an inspiring morning of exploration, innovation, and community connection—embodying the spirit of Remake Learning Days by blending creativity with career readiness.

**REMAKE LEARNING DAY**

**THURSDAY, MAY 15, 2025  
9:00 AM-11:45 AM**

All K-6 BILDers and their grown-ups are invited to the Remake Learning Day event at Southside Elementary. It features STEM-themed stations for career exploration, allowing students to collaborate with their grown-ups. The event will conclude with snacks and giveaways. Grown ups, if you can't make it, we will have secondary BILD students on site to work with your students.

RSVP to Mrs. McCracken by April 17th to indicate if your child will be attending, number of grown ups attending (sorry not siblings), and your child's t-shirt size.
